Dear BCCS Community,

This Friday, 16 March, both the Prime Minister and federal Minister for Education have declared it the National Day of action against Bullying and Violence. Action against bullying and violence is not a one moment in time focus, but this one-day event allows communities such as ours to once again ensure that we are being purposeful and intentional about establishing a school climate, culture and environment that is safe and nurturing.

From time to time in a large community such as a school, conflict and offence can occur. As part of living in a sinful world, bullying can result when we don't relate to others as we should or when people try to exert power and influence over others. Within BCCS we seek to build a safe, positive and caring Christian environment, acknowledging each human being is unique and created by God and therefore are of immense value; providing an environment that leads to greater learning and a feeling of acceptance and belonging. We have an expectation of respect for all others, whether they are students, staff, parents or visitors. We expect every member of our School community to give and receive care and respect. Having a safe school experience is something that all students should be able to enjoy.

We believe in working together with you, as parents, to combat bullying and continue our effort to ensure a safe and productive learning environment for your child. This week, you are invited to participate in the School's visible actions to stand together declaring messages of hope and encouragement to reduce the incidence of bullying; to contribute to the wall- our collection of thoughts and vision of a world free from bullying, and sharing our big ideas of how to stand up, speak up and stop bullying amongst students in our school community. Friday, 16 March, the school community will be working together to celebrate our community with a friendship picnic lunch and presentation afternoon. Keep up-to-date with our visible actions and celebrations on our Facebook page.

Our response and building of a safe, positive, caring and Christlike community will continue throughout the year ahead. **Our priority project** an Open-ended material—loose parts—playground to provide students with never ending ways to transform things into whatever they can mentally imagine. The materials can be moved, carried, combined, redesigned, lined up, taken apart, and put back together in multiple ways. Our goal is to enhance the kids' physical health, as well as improving their self-confidence and social skills, not to mention giving them the space to imagine, create, and dream.

Equipment required:

Cardboard boxes, building materials, packing pellets, wooden or plastic crates, ribbon, rope, string recycled tractor/truck and bicycle tires (avoid steel-belted radials), buckets, tubs, cardboard boxes, rolls and tubes, gutters, PVC pipe (various lengths and diameters), tree stumps of various heights and sizes, tree coasters, wooden reels, wood blocks - two-by-fours and four-by-fours - sleepers and planks of different lengths (No CCS treated wood materials eg.
